

THE ENTERPRISE WORKSTATION

The Enterprise Workstation is a compact, Linux based PC optimized for the enterprise.

This workstation features a mini-ITX board, with customizable CPU options. In addition, it features a GPU slot, accommodating a broad range of intensive applications essential in a business setting. Ideal for development work and self-hosting, it provides ample room for future customizations and upgrades thanks to its mini-ITX board. If your business requires a ready-to-go, premium, Linux-based, standalone workstation, the Enterprise Workstation is an excellent choice.
